PROFILE

Self-taught and passionate Front-End Web Developer who enjoys building interactive and user-friendly websites. I love turning ideas into real web experiences and always look forward to learning new technologies to grow my skills.

I'm also learning Data Analytics, Machine Learning, and Data Science to explore how data can be used to solve real-world problems. I enjoy working alone or in a team and focus on creating clean, responsive, and functional web designs.

SKILLS

- **Languages & Tools:** HTML5, CSS3, JavaScript (ES6+), Python, Git, GitHub, VS Code
- **Frontend:** React.js, Tailwind CSS, React Router, React Hook Form
- **Data Analytics & ML (Learning):** Pandas, NumPy, Matplotlib, Scikit-learn
- **Database:** MongoDB, SQL
- **Others:** REST API, Postman, Netlify, Responsive Design.

EDUCATION

BCA, SRM University, Sikkim – CGPA 7.7

Class 12 (IT Stream) – 63%

Class 10 – 50%

PROJECTS

IT Concurrent Management System (MERN Stack – Internship Group Project)

- Workflow-based IT asset request and verification system.
- Users submit asset requests
- Requests flow through Operator → Verifier → Approver → Super Admin
- Each role can Approve, Reject, or Return requests with remarks
- Super Admin oversees the entire system
- Role-based dashboards with secure login

Tech Used: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

College Admission Portal (MERN Stack – Internship Group Project)

- A full-stack system for student admission applications.
- Student registration and login
- Application form submission
- Admin dashboard for reviewing, approving, and rejecting with remarks

Tech Used: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

Hotel Booking System with Admin Panel (React.js)

- Hotel room booking platform with user and admin interfaces.
- Users can search, book, and manage reservations
- Admin panel for room management and booking overview
- Secure, role-based access

Tech Used: React.js, React Router, Tailwind CSS

Country Info App (React.js)

- Displays details of various countries using REST APIs.
- Shows population, flag, capital, region, and interesting facts
- Searchable UI with dynamic rendering

Tech Used: React.js, CSS, REST AP

CERTIFICATES

- **On-the-Job Training (OJT)** – SRM University, Sikkim
- **Internship** – Government of Sikkim, IT Department
- **The Complete 2023 Web Development Bootcamp** – Udemy
- **Web Development Internship** – Acmegrade
- **Web Development Competition (Inter-College) at ICFAI University, Sikkim** - 3rd Prize
- **Deloitte Virtual Experience Program** – Data Analytics Job Simulation
